EXPERIENCE

Dynamic Solution Innovators (DSi) Dhaka, Bangladesh
Software Engineer Level-I *July 2026 – Present*

- Contribute to backend development with Java and Spring Boot on a project for a US-based client.
- Automated the generation of digital transaction statements for US customers using Bash scripting.

EDUCATION

University of Dhaka Dhaka, Bangladesh
Bachelor of Science (B.Sc.) in Computer Science and Engineering *January 2022 – January 2026*
CGPA: 3.39/4.00

TECHNICAL SKILLS

Programming Languages: Java, Python, C, C++, JavaScript, SQL, Perl
Backend Development: Spring Boot, Spring Security, FastAPI, Flask, REST APIs, JWT, OAuth 2.0
Frontend Development: React.js, Next.js, HTML5, CSS3
Databases: MySQL, PostgreSQL
DevOps and Deployment: Docker, Docker Compose, Linux, CI/CD, DigitalOcean, VPS Deployment
Scripting and Automation: Bash Scripting, Perl Scripting
Tools and Version Control: Git, GitHub, LaTeX

PROJECTS

ToToCompany – Travel and Flight Booking Platform GitHub
Technologies: Java, Spring Boot, Next.js, MySQL, Spring Security, JWT, OAuth 2.0, Docker

- Built a full-stack travel web application for exploring global landmarks, browsing flight information, and managing user profiles.
- Developed REST APIs using Spring Boot and MySQL for backend services and user management.
- Implemented landmark exploration with search and filtering, along with a flight search interface.
- Integrated Google OAuth 2.0 authentication, JWT-based security, email OTP verification, and password recovery.
- Applied Singleton, Factory, MVC, and Builder design patterns to improve code organization and maintainability.

CSEDU Department Website GitHub
Technologies: Python, FastAPI, JavaScript, Next.js

- Contributed to the official website of the University of Dhaka's CSE department, covering user management, academic resources, announcements, and event scheduling.
- Designed and implemented REST APIs for the meetings, events, and announcements modules.
- Developed the meetings, events, and announcements pages and integrated them with the backend APIs.

Marketplace Web Application GitHub
Technologies: Python, Flask, JavaScript, Next.js

- Designed and implemented RESTful APIs in Flask for core marketplace functionality.
- Structured the backend with a modular architecture for scalability and maintainability.
- Handled data processing and routing for client-server communication.

LEADERSHIP AND ACTIVITIES

CSEDU Students' Club, University of Dhaka Dhaka, Bangladesh
President *January 2025 – December 2025*

- Led the students' club of the Department of Computer Science and Engineering, University of Dhaka (CSEDU).
- Organized a 40-team Capture the Flag (CTF) cybersecurity competition for University of Dhaka students.
- Organized the VisionX AI Hackathon, a joint event of CSEDU, US-Bangla, and the ICT Division, with 50 teams from universities across Bangladesh.
- Organized Code Samurai, a two-day national hackathon with 50 teams from across the country, held jointly by CSEDU, BJIT, and Japan-based IT and business companies.
